GN17B1.2A ENVIRONMENTAL STUDIES – I

Course Overview:

A compulsory subject for all the undergraduate students of various discipline highlights significance of maintaining balance and sustainability of various components of the environment.

Objectives of the Course:

To sensitize the students towards sustainable environment.

Course Contents:

Unit – I

Environmental studies – Introduction: - Definition, scope and importance, Measuring and defining environmental development indicators.

Unit - II

Environmental and Natural Resources: Renewable and non-renewable resources - Natural resources and associated problems - Forest resources - Use and over - exploitation, deforestation, case studies - Timber extraction - Mining, dams and other effects on forest and tribal people - Water resources - Use and over utilization of surface and ground water - Floods, drought, conflicts over water, dams - benefits and problems - Mineral resources: Use and exploitation, environmental effects of extracting and using mineral resources, case studies. - Food resources: World food problems, changes caused by agriculture and overgrazing, effects of modern agriculture, fertilizer-pesticide problems, water logging, salinity, case studies. - Energy resources: Growing energy needs, renewable and non-renewable energy sources use of alternate energy sources. Case studies. Land resources: Land as a resource, land degradation, man induced landslides, soil erosion and desertification. Role of an individual in conservation of natural resources. Equitable use of resources for sustainable lifestyles.

Unit - III

Basic Principles of Ecosystems Functioning: Concept of an ecosystem. - Structure and function of an ecosystem. - Producers, consumers and decomposers. - Energy flow in the ecosystem → Ecological succession. - Food chains, food webs and ecological pyramids. - Introduction, types, characteristic features, structure and function of the following ecosystem:

- a. Forest ecosystem
- b. Grassland ecosystem
- c. Desert ecosystem
- d. Aquatic ecosystems (ponds, streams, lakes, rivers, oceans, estuaries).

Unit - IV

Biodiversity and its conservation: Introduction - Definition: genetic, species and ecosystem diversity. Bio-geographical classification of India - Value of biodiversity: consumptive use, productive use, social, ethical, aesthetic and option values → Biodiversity at global, National and local levels. - India as a mega-diversity nation - Hot-spots of biodiversity - Threats to biodiversity: habitat loss, poaching of wildlife, man-wildlife conflicts. - Endangered and endemic species of India - Conservation of biodiversity: In-situ and Ex-situ conservation of biodiversity.

Unit - V

Environmental Pollution: Definition, Cause, effects and control measures of:

a. Air pollution b. Water pollution c. Soil pollution d. Marine pollution e. Noise pollution f. Thermal pollution g. Nuclear hazards

Solid waste Management: Causes, effects and control measures of urban and industrial wastes. - Role of an individual in prevention of pollution. - Pollution case studies. - Disaster management: floods, earthquake, cyclone and landslides.

Unit - VI

Social Issues and the Environment: From unsustainable to sustainable development -Urban problems related to energy -Water conservation, rain water harvesting, watershed management -Resettlement and rehabilitation of people; its problems and concerns. Case Studies -Environmental ethics: Issues and possible solutions. - Climate change, global warming, acid rain, ozone layer depletion, nuclear accidents and holocaust. Case Studies. -Wasteland reclamation. -Consumerism and waste products. -Environment Protection Act. -Air (Prevention and Control of Pollution) Act. -Water (Prevention and control of Pollution) Act -Wildlife Protection Act -Forest Conservation Act -Issues involved in enforcement of environmental legislation. -Public awareness.

Unit - VII

Human Population and the Environment: Population growth, variation among nations. Population explosion - Family Welfare Programme. -Environment and human health. -Human Rights. -Value Education. -HIV/AIDS. - Women and Child Welfare. -Role of information Technology in Environment and human health. -Case Studies.

Unit - VIII

Field work: Visit to a local area to document environmental assets River /forest grassland/hill/mountain -Visit to a local polluted site-Urban/Rural/industrial/ Agricultural Study of common plants, insects, birds. -Study of simple ecosystems -pond, river, hill slopes, etc.

TEXT BOOK:

2nd SEMESTER [1st Year] SYLLABUS

PA17B2.2C PAINTING-II

Unit-I: Developing an awareness of inter-relationship of different shapes and forms relative values. Activation of space through form and color-optical illusions. Handling various materials for pictorial expressions such as pencil, pen poster colours, pastel crayon with inks, water colours etc.

Unit-II: Print making: observation in intrinsic texture of various surfaces and the textures of natural and manmade things surface painting in relief media i.e. cardboards techniques using various texture to understand and develop the design concept in black and white.

Unit-III: Study from man-made objects-Study from nature in Watercolour

***** **Examination will be Still-Life in Watercolour**

FA17B2.1C DRAWING-II

Unit-I: Introduction to elements of perspective - studies of basic forms- plan and elevation, main aspects as parallel and Z angular perspective.

Unit-II: Outdoor sketching -rapid sketching from any objects from busy streets, markets, stations etc. sketching from zoo and museum

Unit-III: Exposure to drawings made by masters-study of different objects. (colour pencils, dry pastels, oil pastels etc.)

Unit-IV: Head study - study of head from cast (various age groups)

***** **Examination will be held in 2B 4B 6B pencil**

FA17B2.3C COLOUR DESIGN-II

Unit-I: Colour experience (pigment and light theory) High key, middle key, and low key, high key tone with and low contrast. Chromatic expression on different backgrounds, depiction of seasons etc.

Unit-II: Colour experience-Colour harmonies. Complementary, Split-complementary, Double Split-Complementary analogous and receding colours. Visual mixing, creative designs through simple motifs from nature and manmade objects,

Unit-III: Elementary knowledge of design (golden rules of art) design based on the fundamentals such as line, form colour, texture, proportion and rhythm tonal values in 3 dimensions exercise with cube prism, sphere, cylinder etc. (E.g. Nature: Mountain. Clouds, Butterfly and flowers, fish & water plants, birds and animals etc).

Unit-IV: Overlapping of motifs & colour combinations to be given from tertiary colours with tints and shades. E.g. For objects: distorted in given space (golden rules of art) exercises - nature and object combination to be given related to colors theory

***** **Examination will be held in Poster Colour**

PA17B2.2C BASIC PRINTMAKING

Unit-I Introduction to theory of Print Making:

Introduction to the history of printing medium and techniques from the traditional process through to collography and other Printmaking process.

Unit-II Collography in Black & white

Study of a printmaking process in which a variety of (usually found) materials are arranged on a collage on to a firm matrix like cardboard or wood. This process is extremely basic and uncomplicated. A collograph refers to a collage of materials glued on to a "printing block," which is a square of cardboard for base, when the base is prepared with help of glue and the raw found material replaced on baseboard is to be placed on surface & it is to dry, then with Paper is pressed on to the surface to produce a print, and about collograph prints

(For example the found raw-materials-

* Textured Handmade sheet, Gaze-cloth(Bandage cloth surgical),

* Thread(cotton) medium thick, Jute cloth pieces, Embroidery like cloth,

* Sand Paper (Electro coated) as smooth-Rough grades, & any Flat surface materials etc...)

Unit-III Monotype printing image

Mono printing and monotype are very similar. The difference between mono printing and monotype printing is that mono printing has a matrix that can be reused, but not to produce an identical result. With monotyping there are no permanent marks on the matrix, and at most two impressions (copies) can be obtained.

Unit-IV Surface printing process:

In this base medium is wood-block. The relief printing is a process where protruding surface faces of the printing block are inked; recessed areas are ink free. Printing the image is relatively simple matter of inking the surface of the block & bringing it in firm contact with the paper, and its print image.

Group discussion

Assignments: 3 final prints in single colour.

Examinations will be in single colour as Black and white, on **wood-block** medium

Half-length studies of human portrait painting the bust of male and female models with their character, emotive expression and likeness. Emphasis is given on study of drapery and the play of light with desired tonal difference.
- Unit-IV Use of different techniques to develop 3 dimensional effects.**
Paint Models with utmost attention using different mediums. Learning portraiture with practical Lectures and demonstrations on portrait painting.

Unit-V Use of different mediums.

Exploring the possibility of different painterly mediums such as acrylic, oil and tempera on canvas.

Group discussion

Assignments: 6 completed life studies in different mediums.

* **Examination in oil colour on Oil Sheet**

PA17B4.3C PRINT MAKING (Graphics) –II

- Unit-I Advance study of relief printing:**
Advanced study of a relief printing process- Use of Various textures for tonal values: study of experimentation with various textures, plate levels and treatments to achieve different tonal values
- Unit-II** Registration and overlapping techniques of Print making based on any printing medium
- Unit-III Collography:**
Advance study of relief printmaking process in which a variety of (usually found) materials are arranged as a collage onto affirm matrix like cardboard or wood. Given that the materials required to carry out this process are extremely basic and uncomplicated.
- Unit-IV** Advanced methods of Wood-Cut - Two Colour Wood-Cut printing,
- Group discussion
- Assignments: 4 final prints in Two- colour.
- Examinations will be Wood-Cut in Black and White or 2 colour**

FA17B4.1C HISTORY OF VISUAL ARTS AND AESTHETICS-IV (Western)

Egg Tempera is one of the oldest fast-drying permanent painting mediums which is prepared using colored pigments or colored powders mixed with a water-soluble binder mediums such as egg yolk, Gum Arabic, Fevicol.

- Unit-I** Understanding Egg Tempera as the water-based, non-toxic and permanent medium.
- Unit-II** preparation of surface, preparation of Egg tempera paint and methods of egg tempera medium.
- Unit-III** Handling the clear, bright, and pure pigments painting still-life
- Unit-IV** Experimenting with use of various textures, play of colour, tonal values, exploiting the possibilities of mediums and techniques

Group discussion

Assignments: 1 finished painting in Egg Tempera in the taught technique.

Evaluation by External Jury

5th SEMESTER [3rd YEAR] SYLLABUS

PA17B5.1C Life Study - I

Painting of full human figure in various colours media (water, Pastel, Oil), Human figure in background and in various pose, understanding of the composition of figure in the space. Study of light fallen on figure & background.

Unit-I Analytical study of Human form:

Observation and rendering of proportions of human body from a Model depicting basic proportions, grace of the figure, structure and construction, planes of the body and drapery, shade and light, Study of the anatomy of the entire human figure with the construction of muscles and bones.

Unit-II Exploration of the possibilities of Tonal Variation, texture, colour:

Study of character, tactile quality, achieving tonal differences according to the play of light and symbolic aspect of color texture working with figure and ground relationship.

Unit-III Stress on evolving individual style and techniques:

Focus on Stylistic development in terms of visual idiom such as subtle stylized distortion, treatment such as impasto, knife-painting, bold brush strokes and hyperrealism.

Unit-IV Use of water colour, oil and other mediums like Tempera acrylic etc:

Students are encouraged to explore uses of non-traditional materials as well as other historic traditional painting media outside the usual realm of oil or acrylic painting.

Unit-V Study of Drapery.

Study of tactile quality, experimentation with variety of mediums, painterly techniques and surfaces.

Group discussion

Assignments: **20** pencil Drawing and **4** completed life study works

* **Examination will be in oil medium**

PA17B5.2C Pictorial Composition -III

Study of unity and harmony in arrangement of figures, shapes, colours, recession/perspective, use of chiaroscuro use of textures, volume and treatment

Unit-I Study of Composition using traditional Indian styles:
